

# Assembly and Disassembly of Railway Wheelsets

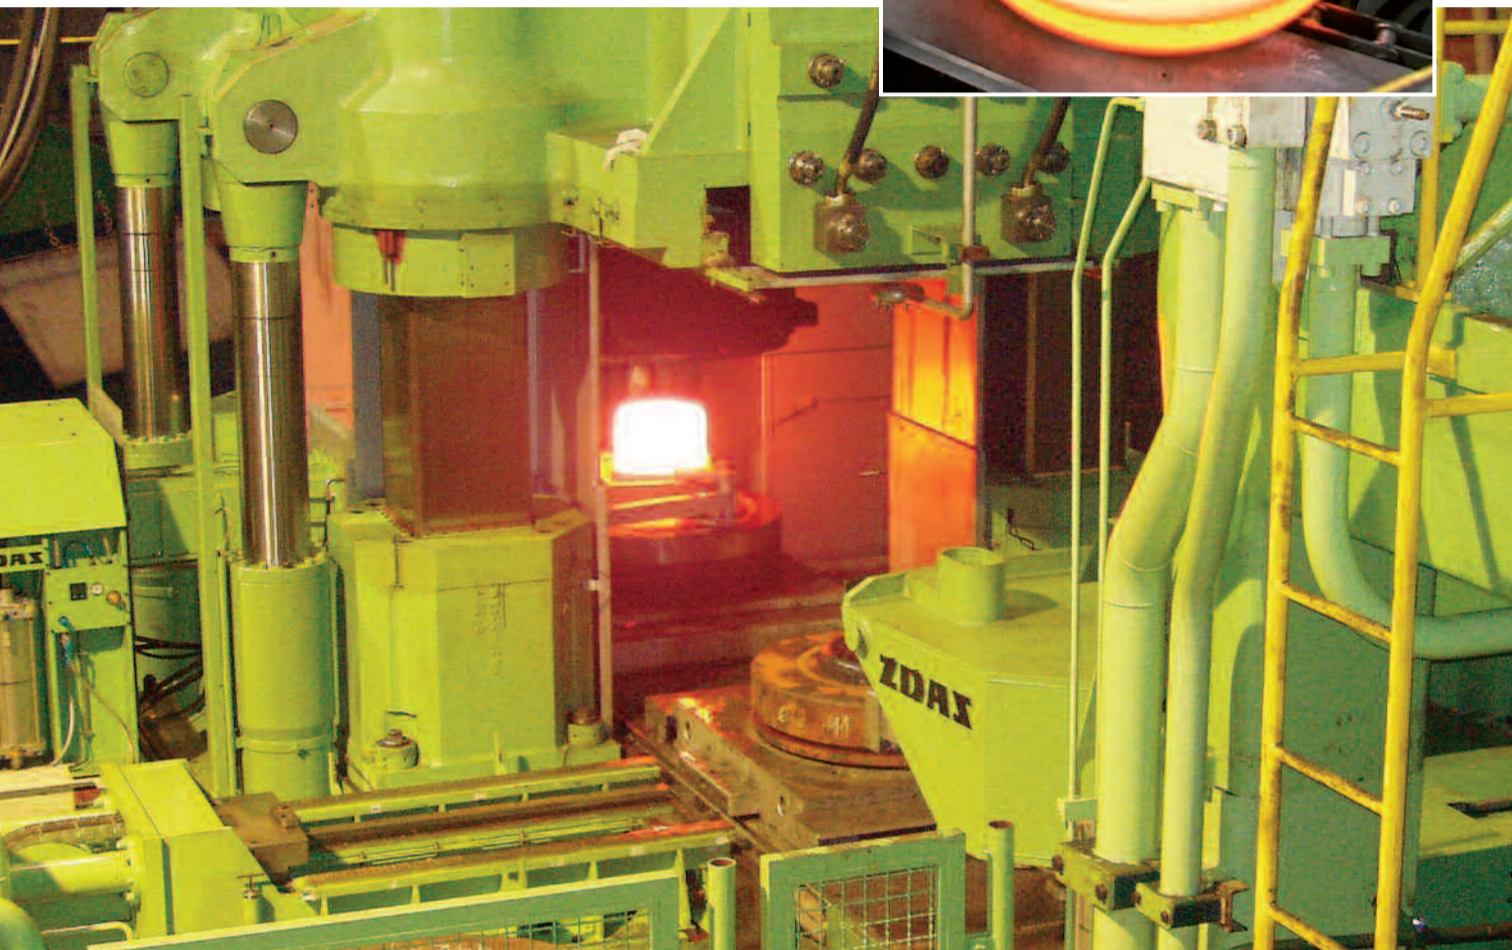

## CDRA 500 Hydraulic Press

- High reliability and easy handling
- Intended for use by railway component manufacturers and railway repair shops
- Cold pressing without guide bushings

# ZDAS

## Forging Railway Wheels

## Line with CKZW 56/65 hydraulic press for forming railway wheels

- High reliability and productivity
- Intended for hot forging in two operations, upsetting and shaping
- High degree of precision for the machine shaping operations
